PUBLICATION IN THE PROCEEDINGS OF PGTS 2008
(title written in 13 points font, bold, single line spacing, capital, centred)**

--- (leave 3 blank lines, 12 points, single line spacing)

These instructions provide the authors with requirements concerning the layout and style which should be adopted during preparation of a camera-ready paper. The paper should be typed using MS Word for Windows (it is preferable). All text material and illustrations will be reduced to 80% before being published, and therefore the authors are requested to make sure that these will be legible after reduction. Recommended text area is 17x23.5 cm centred on A4 paper. Text pages must be produced to the maximal stipulated length. All text should be written using single line spacing. An informative and short abstract (10-15 lines) should be given at the beginning of the paper. Recommended format of the abstract is: length from 10 to 15 lines, 1 cm indentation on the left-hand side, typed in Times-type (Times New Roman is recommended), light, 10 points, single line spacing).

--- (leave 2 blank lines, 13 points, single line spacing)

1. COMPOSITION OF TEXT MATTER (main heading, 12 points, bold, capital)

--- (leave 1 blank line, 12 points, single line spacing)

1.1. STYLE FOR MANUSCRIPTS (sub-heading, 12 points, light, capital)

--- (leave 1 blank line, 12 points, single line spacing)

The language is English. The main body of the paper should be written in 12 points font (light and single line spacing) at a full length of line.

Each new paragraph should start with a 1 cm indentation. It is not recommended to leave additional blank lines between paragraphs.

Authors are requested to submit their manuscripts electronically as a PDF file by following the link and instructions at the symposium home page: <http://www.net.t-labs.tu-berlin.de/pgts/>

E-mail submission is also possible at: pgts@lists.net.t-labs.tu-berlin.de

The total length of a paper should not exceed number of pages announced in the Call for Papers: Full Papers should be no longer than 10 pages, and Short Papers should be no longer than 6 pages.

Authors interested in publishing extra pages bear extra charges. Additional cost (over announced number of pages) is EUR 20,- per page.

--- (leave 1 blank line, 12 points, single line spacing)

1.2.1. MATHEMATICAL FORMULAE (sub-heading, 12 points, light, capital)

The formulae should be centred and numbered on the right-hand side of the page.

* Institution represented by the Author, address and e-mail – font size 10 points under line of 4 cm in length

For pagination use 12 points font, light. All symbols representing variables should be typed in italics (both in the formulae and in the text). e.g.,

--- (leave 1 blank line before and after a formulae, 10 points, single line spacing)

$$\sum_{i=1}^m T_{(i+1)}i + \sum_{j=2}^n S_j \leq 0 \quad (3)$$

--- (leave 1 blank line before and after a formulae, 10 points, single line spacing)

Other recommendations include the following: do not use slash marks in place of parentheses and apply the en-dash to represent ranges e.g., 3–45 MPa.

--- (leave 2 blank lines, 12 points, single line spacing)

2. ILLUSTRATIONS

--- (leave 1 blank line, 12 points, single line spacing)

Photographs must not be glued; but it should be indicated on the back of each photograph where to place it in the text.
