

Evaluation of the Lab Course Praktikum RouterLab SS 2009

Please answer the following questions honestly. Future students of this lab course will benefit if you provide us hints on how to improve this course. Please return the filled evaluation sheets to us in the debriefing session next week (July 15th).

Overall Impression How did you like this lab course? Give a grade from 0 (very good) to 10 (not acceptable)

Overall Impression: 0 (very good) to 10 (terrible course)

Preliminary Knowledge Did the tutorials contain enough background information and hints to solve the work sheet?

..... Yes No

if “No” what was missing?

Work Sheets We would like to know how you liked the individual work sheets. Please try to remember them and grade them by assigning numbers between 1 and 5:

- Difficulty: 1 “very easy”, 5 “very difficult”
- Workload: 1 “could be done in 1 hour”, 5 “workload by far too high”
- Interesting: 1 “very interesting”, 5 “boring”

We would like to know how you liked the Try to remember Time per exercise:

Work Sheet	Topic	Difficulty	Workload	Interesting
1	Introduction			
2	VLANs			
3	RIP			
4	OSPF			
5	BGP			
6	OLSR			
7	IPv6			
8	PPPoE, Radius (postponed one)			
9	Packet Filtering, Traffic Shaping			
10	Workload Generation/SNMP			

Please turn page

Tutors Were you satisfied with the tutors?

..... Yes No

if "No" what could we improve?

Strengths Write what you liked about this lab course?

Weaknesses What didn't you like? What could be improved? Write some sentences!
